I have studied Chemical Engineering in Aristotelio University of Thessaloniki, I have Master in Chemical Engineering and Environmental Conservation and Management (MSc).

I am working in the Institute of Environmental Technology and Sustainable Development which is research and development NGO the last seven years. I am acting as individual consultant in several Governmental Departments, Local Authorities for the implementation of Strategic Plan, preparation of research projects, organizations and monitoring of waste minimization and zero waste plan, health and safety, development of Life Quality through Sustainable Development Projects. Also, since 2018, I am a member of the Subcommittee of Chemical Engineers in Technical Chamber of Cyprus (ETEK).

Until now, I have written 2 chapters in one scientific book, with the title “Sustainability Behind Sustainability” published on Sep 2014 from the Nova Science Publisher. Also, I have published 20 scientific papers in different scientific journals, I have more than 40 presentations in International and National Conferences.

From 2011 until now I have participated in 5 European projects such as: (1) the LIFE Program "Boosting Regulatory Advantages Vis à vis Emas Registration", (2) the "Development and demonstration of a waste prevention support tool for local authorities", (3) to the “Public Participation in the Development of a Common Framework for the Evaluation and Management of Sustainable Innovation” (4) the project “Towards Farms with zero carbon, waste and water-footprint. Roadmap for sustainable management strategies for Balkan agricultural, BALKANROAD” and (5) «Innovative technologies for climate change mitigation by Mediterranean agricultural sector - LIFE17 CCM/GR/000087 – CLIMAMED»
