WORKSHOP UMH TEAM

Expectative and main ideas to transmit to the stakeholders and target groups

REUNIÓN DE TRABAJO DEL EQUIPO DE LA UMH

Reunión informativa y de análisis del proyecto LIFE17 CCM-GR-000087

Expectativas y principales ideas a transmitir a los grupos de interés

The UMH-group of LIFE CLIMAMED project held a meeting along 2022/03/03 to update the progress and prepare the strategies for the next meetings with the stakeholders.

These strategies are based on the sustainable actions that can help to mitigate climate change under the data and results obtained in the project.

The responsible of the Environmental Office of the university participated in the meeting, as they are interested in the development of the LIFE CLIMAMED and the expected results.

The meeting was a success although the pandemic situation has influenced the normal development of the project.
